Bibles-4-Children Begins New Project Focusing on Syrian Refugee Children

The Lion Project is Bibles-4-Children's newest project. It is a solar-powered, digital audio player placed into the pocket of a stuffed animal. Each audio player can be loaded with up to 800 hours of audio. Content includes the entire Bible, Bible stories, and Bible lessons in a language they understand.

Bibles-4-Children is part of a wide-range distribution project that is attempting to provide 100,000 lions in Arabic to refugee children in Lebanon, Jordan, Turkey, Egypt, and Iraq who have been devastated by war and the brutality of ISIS.

Imagine the impact that these cuddly animals containing God's Word will have. When a child receives a Lion, they also receive the truth of the Bible. These soft, lovable animals comfort children and let them know

they are loved and not forgotten. Combine that with God's Word of hope and love and you have a powerful tool with eternal results.

Each Lion costs \$50 to produce and distribute and will potentially affect more than 20 others — parents, siblings, extended family and friends. Bibles-4-Children has a goal of providing 1,000 lions this year. This number will influence over 20,000 with the Gospel! A small investment for such a tremendous impact.

Currently, Bibles-4-Children has distributed several hundred lions and the reports from the refugee camps are just beginning to come in.

Here is what some are saying in response to receiving these stuffed

animals containing the Word of God and Bible stories:

The first time he listened to it, he listened for two hours straight! "I like it because I'm learning about how to help others."

~Isaam Ilfarah, age 13

Amani says that she's learning how to love others from the audio Bible. "I feel great when I listen to it! There is a peace about the house when we're listening to it. No one makes problems with each other."

~Amani Blumrad, age 11

"I like to listen to the Bible before I go to bed. I like the stories!"

~Mohammad Shaykho, age 11
